## **FUND SUMMARY**

**Investment Objective:** The Fund seeks high total return with reasonable risk.

**Fees and Expenses of the Fund:** This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table and example below.** You may qualify for sales charge discounts on purchases of Class A shares if you and your family invest, or agree to invest in the future, at least \$25,000 in the Fund. More information about these and other discounts is available from your financial professional and in **How to Purchase Shares** on page 13 of this Prospectus.

<b>Shareholder Fees (fees paid directly from your investment)</b>	<b>Class A</b>	<b>Class C</b>	<b>Class I</b>
Maximum Sales Charge (Load) Imposed on purchases (as a percentage of offering price)	5.75%	None	None
Maximum Deferred Sales Charge (Load) (as a percentage of purchase price)	None	None	None
Redemption Fee (as a % of amount redeemed if held less than 60 days)	1.00%	1.00%	1.00%
<b>Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)</b>			
Management Fees	1.00%	1.00%	1.00%
Distribution and Service (12b-1) Fees	0.25%	1.00%	None
Other Expenses	0.73%	0.73%	0.72%
Acquired Fund Fees and Expenses <sup>(1)</sup>	0.31%	0.31%	0.31%
Total Annual Fund Operating Expenses	2.29%	3.04%	2.03%
Fee Waiver and Expense Reimbursement <sup>(2)</sup>	(0.61)%	(0.61)%	(0.60)%
Total Annual Fund Operating Expenses After Fee Waiver	1.68%	2.43%	1.43%

(1) Acquired Fund Fees and Expenses are the estimated indirect costs of investing in other investment companies. The operating expenses in this fee table will not correlate to the expense ratio in the Fund's financial highlights because the financial statements include only the direct operating expenses incurred by the Fund.

(2) The Fund's adviser, Pinnacle Family Advisors, LLC, (the "Adviser") has contractually agreed to waive management fees and to make payments to limit Fund expenses until August 1, 2026 so that the Total Annual Operating Expenses After Fee Waiver and Reimbursement (excluding: (i) any front-end or contingent deferred loads; (ii) brokerage fees and commissions; (iii) acquired fund fees and expenses; (iv) borrowing costs (such as interest and dividend expense on securities sold short); (v) taxes; and (vi) extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees, contractual indemnification of Fund service providers (other than the Adviser))) do not exceed 1.49%, 2.24% and 1.24% of average daily net assets attributable to Class A, C and I shares, respectively. These fee waivers and expense reimbursements are subject to possible recoupment from the Fund in future years within three years after the fees have been waived or reimbursed if such recoupment can be achieved within the foregoing expense limits or within the expense limits in place at the time of recoupment, whichever is lower. This agreement may be terminated by the Board of Trustees only on 60 days' written notice to the Adviser. The Adviser has further waived fee for an affiliated holding. The Impact of the affiliated holding waiver is 0.12%.

**Example:** This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based upon these assumptions your costs would be:

<b><u>Class</u></b>	<b><u>1 Year</u></b>	<b><u>3 Years</u></b>	<b><u>5 Years</u></b>	<b><u>10 Years</u></b>
A	\$736	\$1,194	\$1,677	\$3,005
C	\$246	\$882	\$1,543	\$3,313
I	\$146	\$579	\$1,038	\$2,311

**Portfolio Turnover:** The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 424% of the average value of its portfolio.

**Principal Investment Strategies:** The Fund seeks to meet its investment objective by investing, under normal market conditions, in foreign and domestic (i) equity securities of all market capitalizations, (ii) fixed income securities of any credit quality, and (iii) cash and cash equivalents. The Fund intends to generally invest in a mix of asset classes. The Fund may invest in individual securities or in exchange traded funds (“ETFs”) and may invest in emerging markets. The Fund actively trades its portfolio investments.

The Adviser uses four proprietary risk management signals to determine the Fund's equity, fixed income, and/or cash allocations: The Pinnacle Short-Intermediate Term Signal reviews domestic equity industry groups to determine whether domestic equities are trending upward. The Pinnacle Intermediate-Term RS Signal compares three equity indices to cash on a daily basis to determine whether domestic equities are trending upward. The Pinnacle Multi-Term Signal measures technical indicators and thresholds on a weekly basis to determine whether assets should remain invested in foreign or domestic equities. The Pinnacle Long-Term Signal measures market analytics over a 6-month or longer time period to determine whether assets based on this signal are invested in foreign or domestic equities.

The process follows these general steps: (1) the expected market trend, as determined by the risk management signals, for equity securities over a period is examined; (2) if equities are trending upward for the applicable period based on the risk management signal, the assets allocated based on that particular signal are invested in equities based on the Pinnacle Relative Strength Investment Rankings of equity asset classes, equity sectors and subsectors that are representative of the entire market; and (3) if equities are trending downward based on the risk management signal, the assets allocated based on that particular management signal are invested in fixed income securities or cash. The Pinnacle Relative Strength Investment Rankings compare equities on intermediate-term price performance to each other and to broad-based equity indices. The higher-ranking equity asset classes, sectors, and subsectors will provide at least 75% of the equity exposure of the Fund. The Fund may invest up to 25% in individual equities.

**Principal Investment Risks:** *As with all mutual funds, there is a risk that you could lose money through your investment in the Fund. The Fund is not intended to be a complete investment program. Many factors affect the Fund's net asset value (“NAV”) and performance. The following risks may apply to the Fund's direct investments as well as the Fund's indirect investments through ETFs.*

- *Cash and Cash Equivalents Risk:* When the Fund is out of the market and invests in cash and cash equivalents, there is a risk that the market will begin to rise rapidly, and the Fund will not be able to reinvest its cash positions into areas of the advancing market quickly enough to capture the initial returns of changing market conditions.
- *Credit Risk:* Issuers may not make interest or principal payments on securities, resulting in losses to the Fund. In addition, the credit quality of securities held by the Fund may be lowered if an issuer's financial condition changes. These risks are more pronounced for securities with lower credit quality, such as those rated below BBB- by Standard & Poor's Ratings Group or another credit rating agency.
- *Emerging Market Risk:* Investing in emerging markets involves not only the risks described below with respect to investing in foreign securities, but also other risks, including exposure to economic structures that are generally less diverse and mature, limited availability and reliability of information material to an investment decision, and exposure to political systems that can be expected to have less stability than those of developed countries. The market for the securities of issuers in emerging market typically is small, and a low or nonexistent trading volume in those securities may result in a lack of liquidity and price volatility.
- *Equity Risk:* The NAV of the Fund will fluctuate based on changes in the value of the equity securities held by the underlying ETFs that invest in U.S. and/or foreign equity securities. Equity prices can fall rapidly in response to developments affecting a specific company or industry, or to changing economic, political or market conditions.
- *ETF Risk:* ETFs are subject to investment advisory and other expenses, which will be indirectly paid by the Fund. As a result, your cost of investing in the Fund will be higher than the cost of investing directly in ETFs and may be higher than other mutual funds that invest directly in securities. Each ETF is subject to specific risks, depending on its investments.
- *Fixed Income Risk:* Typically, a rise in interest rates causes a decline in the value of fixed income securities. The value of fixed income securities typically falls when an issuer's credit quality declines and may even become worthless if an issuer defaults.
- *Foreign Currency Risk:* Currency trading risks include market risk, credit risk and country risk. Market risk results from adverse changes in exchange rates in the currencies the Fund is long or short. Credit risk results because a currency-trade counterparty may default. Country risk arises because a government may interfere with transactions in its currency.

- *Foreign Investment Risk:* Foreign investing (including through American Depositary Receipts (“ADRs”), European Depositary Receipts (“EDRs”) and Global Depositary Receipts (“GDRs”)) involves risks not typically associated with U.S. investments, including adverse fluctuations in foreign currency values, adverse political, social and economic developments, less liquidity, greater volatility, less developed or less efficient trading markets, political instability and differing auditing and legal standards. Investing in emerging markets imposes different or greater risks than those associated with foreign developed countries.
- *High Yield (Junk) Bond Risk:* Lower-quality fixed income securities, known as “high yield” or “junk” bonds, present greater risk than bonds of higher quality, including an increased risk of default. An economic downturn or period of rising interest rates could adversely affect the market for these bonds and reduce the Fund’s ability to sell its bonds. The lack of a liquid market for these bonds could decrease the Fund’s share price.
  - *Defaulted Securities Risk:* Repayment of defaulted securities and obligations of distressed issuers (including insolvent issuers or issuers in payment or covenant default, in workout or restructuring or in bankruptcy or in solvency proceedings) is subject to significant uncertainties. Investments in defaulted securities and obligations of distressed issuers are considered speculative.
- *Issuer-Specific Risk:* The value of securities of smaller issuers can be more volatile than those of larger issuers. The value of certain types of securities can be more volatile due to increased sensitivity to adverse issuer, political, regulatory, market, or economic developments.
- *Large Capitalization Company Risk:* Large-capitalization companies may be less able than smaller capitalization companies to adapt to changing market conditions. Large-capitalization companies may be more mature and subject to more limited growth potential compared with smaller capitalization companies. During different market cycles, the performance of large capitalization companies has trailed the overall performance of the broader securities markets.
- *Management Risk:* The Adviser’s judgment about the attractiveness, value and potential appreciation of particular asset classes and securities in which the Fund invests (long or short) may prove to be incorrect and may not produce the desired results.
- *Market and Geopolitical Risk:* The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Securities in the Fund’s portfolio may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, climate change and climate-related events, pandemics, epidemics, terrorism, international conflicts, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years may result in market volatility and may have long term effects on both the U.S. and global financial markets.
- *Model Risk:* Like all quantitative analysis, the investment model carries a risk that the model might be based on one or more incorrect assumptions or may not perform as expected.
- *Portfolio Turnover Risk:* A higher portfolio turnover will result in higher transactional and brokerage costs.
- *Small and Medium Capitalization Company Risk:* The value of small or medium capitalization companies may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market averages in general.
- *Sovereign Debt Risk:* The issuer of the foreign debt or the governmental authorities that control the repayment of the debt may be unable or unwilling to repay principal or interest when due, and the Fund may have limited recourse in the event of a default. The market prices of sovereign debt, and the Fund’s NAV, may be more volatile than prices of U.S. debt obligations and certain emerging markets may encounter difficulties in servicing their debt obligations.
- *U.S. Government Obligations Risk:* U.S. Treasury obligations are backed by the “full faith and credit” of the U.S. government and generally have negligible credit risk. Securities issued or guaranteed by federal agencies or authorities and U.S. government-sponsored instrumentalities or enterprises may or may not be backed by the full faith and credit of the U.S. government. The Fund may be subject to such risk to the extent it invests in securities issued or guaranteed by federal agencies or authorities and U.S. government-sponsored instrumentalities or enterprises.

**Performance:** The bar chart and performance table below show the variability of the Fund's returns over time, which is some indication of the risks of investing in the Fund. The bar chart shows performance of the Fund's Class I shares for each full calendar year since the Fund's inception. The performance table compares the performance of the Fund's shares over time to the performance of a broad-based market index and supplemental index. You should be aware that the Fund's past performance (before and after taxes) may not be an indication of how the Fund will perform in the future. Although Class A and Class C shares have similar returns to Class I shares because the classes are invested in the same portfolio of securities, the returns for Class A and Class C shares are different from Class I shares because Class A and Class C shares have different expenses than Class I shares. Updated performance information is available at no cost by visiting [www.pinnacledynamicfunds.com](http://www.pinnacledynamicfunds.com) or by calling 1-888-985-9830.

**Class I Performance Bar Chart For Calendar Years Ended December 31**

Best Quarter:	12/31/20	11.74%
Worst Quarter:	12/31/18	(15.84)%

**Performance Table**  
**Average Annual Total Returns**  
*(For the periods ended December 31, 2024)*

	One Year	Five Years	Since Inception (10-1-15)
<b>Class I shares</b>			
Return before taxes	12.44%	7.94%	6.47%
Return after taxes on distributions	10.63%	6.56%	5.29%
Return after taxes on distributions and sale of Fund shares	7.88%	5.80%	4.72%
<b>Class A shares</b>			
Return before taxes	5.79%	6.43%	5.52%
<b>Class C shares</b>			
Return before taxes	11.40%	6.87%	5.40%
<b>S&amp;P 500® Equal Weight Index<sup>(1)</sup></b> (reflects no deduction for fees, expenses or taxes)	13.01%	10.76%	12.00%
<b>Bloomberg U.S. Aggregate Bond Index<sup>(2)</sup></b> (reflects no deduction for fees, expenses or taxes)	1.25%	(0.33)%	1.33%

(1) The S&P 500® Equal Weight Index (EWI) is the equal-weight version of the widely-used S&P 500. The index includes the same constituents as the capitalization weighted S&P 500, but each company in the S&P 500 EWI is allocated a fixed weight - or 0.2% of the index total at each quarterly rebalance. The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and is not available for direct investment.

(2) The Bloomberg US Aggregate Bond Index is a broad-based flagship benchmark that measures the investment grade, US dollar denominated, fixed-rate taxable bond market. The index includes Treasuries, government-related and corporate securities, fixed rate agency MBS, ABS and CMBS (agency and non-agency). The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and is not available for direct investment.

After-tax returns were calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns shown are not relevant to investors who hold shares of the Fund through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. After tax returns for the share classes which are not presented will vary from the after-tax returns of Class I shares.

**Investment Adviser:** Pinnacle Family Advisors, LLC

**Portfolio Managers:** R. Sean McCurry is the Managing Member and President of the Adviser and Paul Carroll is the Chief Investment Officer and Chief Compliance Officer of the Adviser. Each has served the Fund as a portfolio manager since it commenced operations in October 2015.

**Purchase and Sale of Fund Shares:** You may purchase and redeem shares of the Fund on any day that the New York Stock Exchange is open for trading. The minimum initial investment is \$2,000 for investors in Class A and Class C shares of the Fund and \$1,000,000 for investors in Class I shares of the Fund. The minimum subsequent investment is \$500 for Class A and Class C shares of the Fund and \$5,000 for Class I shares of the Fund.

**Tax Information:** Dividends and capital gain distributions you receive from the Fund, whether you reinvest your distributions in additional Fund shares or receive them in cash, are taxable to you at either ordinary income or capital gains tax rates unless you are investing through a tax-deferred plan such as an IRA or 401(k) plan. However, these dividend and capital gain distributions may be taxable upon their eventual withdrawal from tax-deferred plans.

**Payments to Broker-Dealers and Other Financial Intermediaries:** If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

## **ADDITIONAL INFORMATION ABOUT PRINCIPAL INVESTMENT STRATEGIES AND RELATED RISKS**

### **Investment Objective:**

The Fund seeks high total return with reasonable risk. The Fund's investment objective may be changed by the Board of Trustees (the "Board") upon 60 days' written notice to shareholders.

### **Principal Investment Strategies:**

The Fund seeks to meet its investment objective by investing, under normal market conditions, in foreign and domestic (i) equity securities of all market capitalizations, (ii) fixed income securities of any credit quality, and (iii) cash and cash equivalents. The Fund intends to generally invest in a mix of asset classes. The Fund may invest in individual securities or in exchange traded funds ("ETFs"), and may invest in emerging markets. The Fund actively trades its portfolio investments.

Pinnacle Family Advisors, LLC (the "Adviser") uses (1) Pinnacle Risk Management Signals to determine the Fund's equity, fixed income and/or cash allocations and (2) Pinnacle Relative Strength Investment Rankings to determine the Fund's investments.

The number of equity ETFs and fixed income ETFs in the portfolio at any given time varies depending on the Pinnacle Risk Management Signals and Pinnacle Relative Strength Investment Rankings. The Adviser uses these signals and rankings to determine which ETFs, and how many ETFs, to hold in each category. The underlying ETFs may be non-diversified and include affiliated ETFs such as the Pinnacle Focused Opportunities ETF sub-advised by the Adviser. The Adviser does not receive duplicate advisory fees for investment in any affiliated ETF. These underlying ETFs can have as few as 30 holdings and as many as 6,900 holdings.

### **Pinnacle Risk Management Signals**

Each of the Pinnacle Risk Management Signals uses various inputs to determine its risk on/risk off status. Each Pinnacle Risk Management Signal determines 25% of the Fund's allocations.

*The Pinnacle Short-Intermediate Term Signal:* This signal examines on a daily basis the stocks assigned to domestic equity industry groups by the Nasdaq Dorsey Wright Research Platform in a positive trend, and the stocks within each group showing positive relative strength. If this signal is positive (domestic equities are trending upward), assets allocated based on this signal are invested in equity securities. If this signal is negative (domestic equities are trending downward), assets allocated based on this signal are invested in fixed income, cash and/or cash equivalents.

*The Pinnacle Intermediate-Term RS Signal:* This signal compares the S&P 500 Index, NASDAQ-100 Index and the Dow Jones Industrial Average Index to cash (with a risk-free rate of return) in a relative strength (RS) calculation on a daily basis. This measurement takes place on a daily basis. If this signal is positive (domestic equities are trending upward), assets allocated based on this signal are invested in equity securities. If this signal is negative, and is confirmed by further price decline in the indices, assets allocated based on this signal are invested in fixed income, cash and/or cash equivalents.

*The Pinnacle Multi-Term Signal:* This signal uses multiple technical indicators and thresholds to determine its risk on/risk off signal. This signal is measured on a weekly basis. This signal remains positive and assets allocated based on this signal are invested in equity securities unless the technical indicators are negative and predetermined thresholds are violated. When technical indicators are negative and predetermined thresholds are violated, the signal is negative (risk off). If the signal is negative and interest rates are trending low, assets allocated based on this signal are invested in fixed income. If the signal is negative while interest rates are trending high, assets allocated based on this signal are held in cash and/or cash equivalents.

*The Pinnacle Long-Term Signal:* This signal uses multiple technical indicators that measure market analytics on a daily basis and, under normal circumstances, is intended to reveal the strength or weakness of the equity market over a longer-term timeframe of typically 6 months or more. If this signal is positive, assets allocated based on this signal are invested in equity securities. If this signal is negative, the assets allocated based on this signal are invested in fixed income, cash and/or cash equivalents.

Each of the Risk Management Signals are based on technical analysis of historical prices. Technical analysis is the method of evaluating securities by analyzing statistics generated by market activity, such as past prices, in an effort to determine the risk environment.

## **Pinnacle Relative Strength Investment Rankings**

The Pinnacle Risk Management Signals determine the Fund's allocation to equities securities, while the Pinnacle Relative Strength Investment Rankings determine the specific types of equities that are owned by the Fund. When a Risk Management Signal is positive, the Adviser ranks equity asset classes, equity sectors and subsectors that are representative of the entire market, and individual equities listed on the S&P 500 Index, the NASDAQ-100 Index and the Dow Jones Industrial Average Index on an intermediate-term price performance relative to each other and broad-based equity indices on a daily basis. The higher-ranking equity asset classes, sector, and sub-sectors will provide at least 75% of the equity exposure of the Fund. The Fund may invest up to 25% in individual equities.

### **Principal Investment Risks:**

The following section summarizes the principal risks of the Fund. These risks could adversely affect the net asset value ("NAV"), total return and the value of the Fund and your investment. The risk descriptions below provide a more detailed explanation of the principal investment risks that correspond to the risks described in the "Fund Summary" section of this Prospectus.

- *Cash and Cash Equivalents Risk:* When the Fund is out of the market and invests in cash and cash equivalents, there is a risk that the market will begin to rise rapidly, and the Fund will not be able to reinvest its cash positions into areas of the advancing market quickly enough to capture the initial returns of changing market conditions.
- *Credit Risk:* There is a risk that issuers and counterparties will not make payments on securities and other investments held by the Fund, resulting in losses to the Fund. In addition, the credit quality of securities held by the Fund may be lowered if an issuer's financial condition changes. Lower credit quality may lead to greater volatility in the price of a security and in shares of the Fund. Lower credit quality also may affect liquidity and make it difficult for the Fund to sell the security. Default, or the market's perception that an issuer is likely to default, could reduce the value and liquidity of securities held by the Fund, thereby reducing the value of your investment in Fund shares. In addition, default may cause the Fund to incur expenses in seeking recovery of principal or interest on its portfolio holdings. Credit risk also exists whenever the Fund enters into a foreign exchange because the counterparty may not be able or may choose not to perform under the contract. When the Fund invests in foreign currency contracts, it is assuming a credit risk with regard to the party with which it trades and also bears the risk of settlement default. These risks may differ materially from risks associated with transactions effected on an exchange, which generally are backed by clearing organization guarantees, daily mark-to-market and settlement, segregation and minimum capital requirements applicable to intermediaries. Transactions entered into directly between two counterparties generally do not benefit from such protections. Relying on a counterparty exposes the Fund to the risk that a counterparty will not settle a transaction in accordance with its terms and conditions because of a dispute over the terms of the contract (whether or not bona fide) or because of a credit or liquidity problem, thus causing the Fund to suffer a loss. If a counterparty defaults on its payment obligations to the Fund, this default will cause the value of an investment in the Fund to decrease. In addition, to the extent the Fund deals with a limited number of counterparties, it will be more susceptible to the credit risks associated with those counterparties. The Fund is neither restricted from dealing with any particular counterparty nor from concentrating any or all of its transactions with one counterparty. The ability of the Fund to transact business with any one or number of counterparties and the absence of a regulated market to facilitate settlement may increase the potential for losses by the Fund.
- *Emerging Market Risk:* The Fund may invest in countries with newly organized or less developed securities markets. Investments in emerging markets typically involves greater risks than investing in more developed markets. Generally, economic structures in these countries are less diverse and mature than those in developed countries and their political systems tend to be less stable. Emerging market countries may have different regulatory, accounting, auditing, and financial reporting and record keeping standards and may have material limitations on Public Company Accounting Oversight Board ("PCAOB") inspection, investigation, and enforcement. Therefore, the availability and reliability of information, particularly financial information, material to an investment decision in emerging market companies may be limited in scope and reliability as compared to information provided by U.S. companies. Emerging market economies may be based on only a few industries. As a result, security issuers, including governments, may be more susceptible to economic weakness and more likely to default. Emerging market countries also may have relatively unstable governments, weaker economies, and less-developed legal systems with fewer security holder rights. Investments in emerging markets countries may be affected by government policies that restrict foreign investment in certain issuers or industries. The potentially smaller size of securities markets in emerging market countries and lower trading volumes can make investments relatively illiquid and potentially more volatile than investments in developed countries, and such securities may be subject to abrupt and severe price declines. Due to this relative lack of liquidity, the Fund may have to accept a lower price or may not be able to sell a portfolio security at all. An inability to sell a portfolio position can adversely affect the Fund's value or prevent the Fund from being able to meet cash obligations or take advantage of other investment opportunities.

- *Equity Risk:* The NAV of the Fund will fluctuate based on changes in the value of the equity securities held by the Fund or underlying funds that invest in U.S. and/or foreign equity securities. Equity prices can fall rapidly in response to developments affecting a specific company or industry, or to changing economic, political or market conditions.
- *ETF Risk:* ETFs are subject to investment advisory and other expenses, which will be indirectly paid by the Fund. As a result, your cost of investing in the Fund will be higher than the cost of investing directly in ETFs and may be higher than other mutual funds that invest directly in stocks and bonds. ETFs are listed on national stock exchanges and are traded like stocks listed on an exchange. ETF shares may trade at a discount or a premium in market price if there is a limited market in such shares. ETFs are also subject to brokerage and other trading costs, which could result in greater expenses to the Fund. ETFs may employ leverage, which magnifies the changes in the value of the ETFs. Finally, because the value of ETF shares depends on the demand in the market, the adviser may not be able to liquidate the Fund's holdings at the most optimal time, adversely affecting performance.

You will indirectly bear fees and expenses charged by the ETFs in addition to the Fund's direct fees and expenses. Additional risks of investing in ETFs are described below:

- *Strategy Risk:* Each ETF is subject to specific risks, depending on the nature of the ETF. These risks could include liquidity risk, sector risk as well as risks associated with fixed-income securities.
- *NAV and Market Price Risk:* The market value of the ETF shares may differ from their NAV. This difference in price may be due to the fact that the supply and demand in the market for ETF shares at any point in time is not always identical to the supply and demand in the market for the underlying basket of securities. Accordingly, there may be times when an ETF share trades at a premium or discount to its NAV.
- *Tracking Risk:* Investment in the Fund should be made with the understanding that the ETFs in which the Fund invests will not be able to replicate exactly the performance of the indices they track because the total return generated by the securities will be reduced by transaction costs incurred in adjusting the actual balance of the securities. In addition, the ETFs in which the Fund invests will incur expenses not incurred by their applicable indices. Certain securities comprising the indices tracked by the ETFs, from time to time, temporarily be unavailable, which may further impede the ability to track the applicable indices.
- *Fixed Income Risk:* When the Fund invests in fixed income securities, the value of your investment in the Fund will fluctuate with changes in interest rates. Typically, a rise in interest rates causes a decline in the value of fixed income securities owned by the Fund. In general, the market price of debt securities with longer maturities will increase or decrease more in response to changes in interest rates than shorter-term securities. Convertible securities are hybrid securities that have characteristics of both fixed income securities and common stocks and are subject to risks associated with both debt securities and equity securities. Other risk factors include credit risk (the debtor may default) and prepayment risk (the debtor may pay its obligation early, reducing the amount of interest payments; or the debtor may pay its obligation later than expected, reducing the returns earned by an investment). These risks could affect the value of a particular investment by the Fund possibly causing the Fund's share price and returns to be reduced and fluctuate more than other types of investments.
- *Foreign Currency Risk:* Currency trading involves significant risks, including market risk, interest rate risk, country risk, counterparty credit risk and short sale risk. Market risk results from the price movement of foreign currency values in response to shifting market supply and demand. Since exchange rate changes can readily move in one direction, a currency position carried overnight or over a number of days may involve greater risk than one carried a few minutes or hours. Interest rate risk arises whenever a country changes its stated interest rate target associated with its currency. Country risk arises because virtually every country has interfered with international transactions in its currency. Interference has taken the form of regulation of the local exchange market, restrictions on foreign investment by residents or limits on inflows of investment funds from abroad. Restrictions on the exchange market or on international transactions are intended to affect the level or movement of the exchange rate. This risk could include the country issuing a new currency, effectively making the "old" currency worthless. The Fund may also take short positions, through derivatives, if the Adviser believes the value of a currency is likely to depreciate in value. A "short" position is, in effect, similar to a sale in which the Fund sells a currency it does not own but, has borrowed in anticipation that the market price of the currency will decline. The Fund must replace a short currency position by purchasing it at the market price at the time of replacement, which may be more or less than the price at which the Fund took a short position in the currency.
- *Foreign Investment Risk:* Foreign investing (including through ADRs, EDRs and GDRs) involves risks not typically associated with U.S. investments, including adverse fluctuations in foreign currency values, adverse political, social and economic developments, less liquidity, greater volatility, less developed or less efficient trading markets, political instability and differing auditing and legal standards. Investing in emerging markets imposes risks different from, or greater than, risks of investing in foreign developed countries.

- *High Yield (Junk) Bond Risk:* Lower-quality fixed income securities, known as “high yield” or “junk” bonds, present a significant risk for loss of principal and interest. These bonds offer the potential for higher return, but also involve greater risk than bonds of higher quality, including an increased possibility that the bond’s issuer, obligor or guarantor may not be able to make its payments of interest and principal (credit quality risk). If that happens, the value of the bond may decrease, and the Fund’s share price may decrease and its income distribution may be reduced. An economic downturn or period of rising interest rates (interest rate risk) could adversely affect the market for these bonds and reduce the Fund’s ability to sell its bonds (liquidity risk). Such securities may also include “Rule 144A” securities, which are subject to resale restrictions. The lack of a liquid market for these bonds could decrease the Fund’s share price.
  - *Defaulted Securities Risk:* Defaulted securities risk refers to the uncertainty of repayment of defaulted securities and obligations of distressed issuers. Repayment of defaulted securities and obligations of distressed issuers (including insolvent issuers or issuers in payment or covenant default, in workout or restructuring or in bankruptcy or in solvency proceedings) is subject to significant uncertainties. Investments in defaulted securities and obligations of distressed issuers are considered speculative.
- *Issuer-Specific Risk:* The value of a specific security can be more volatile than the market as a whole and can perform differently from the value of the market as a whole. The value of securities of smaller issuers can be more volatile than those of larger issuers. The value of certain types of securities can be more volatile due to increased sensitivity to adverse issuer, political, regulatory, market, or economic developments.
- *Large Capitalization Company Risk:* Large-capitalization companies may be less able than smaller capitalization companies to adapt to changing market conditions. Large-capitalization companies may be more mature and subject to more limited growth potential compared with smaller capitalization companies. During different market cycles, the performance of large capitalization companies has trailed the overall performance of the broader securities markets.
- *Management Risk:* The NAV of the Fund changes daily based on the performance of the securities and derivatives in which it invests. The Adviser’s judgments about the attractiveness, value and potential appreciation of particular asset classes and securities in which the Fund invests (long or short) may prove to be incorrect and may not produce the desired results.
- *Market and Geopolitical Risk:* The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Securities in the Fund’s portfolio may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, climate change and climate-related events, pandemics, epidemics, terrorism, international conflicts, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years, such as a worldwide pandemic, terrorist attacks, natural disasters, social and political discord or debt crises and downgrades, among others, may result in market volatility and may have long term effects on both the U.S. and global financial markets. It is difficult to predict when similar events affecting the U.S. or global financial markets may occur, the effects that such events may have and the duration of those effects. Any such event(s) could have a significant adverse impact on the value and risk profile of the Fund’s portfolio. For example, the COVID-19 global pandemic and the aggressive responses taken by many governments had negative impacts, and in many cases severe negative impacts, on markets worldwide. It is not known how long the impacts of the events described above would last, but there could be a prolonged period of global economic slowdown, which may impact your Fund investment. Therefore, the Fund could lose money over short periods due to short-term market movements and over longer periods during more prolonged market downturns. During a general market downturn, multiple asset classes may be negatively affected. Changes in market conditions and interest rates can have the same impact on all types of securities and instruments. In times of severe market disruptions, you could lose your entire investment.
- *Model Risk:* Like all quantitative analyses, the investment model carries a risk that the proprietary ranking system and valuation model used might be based on one or more incorrect assumptions or may not perform as expected. Rapidly changing and unforeseen market dynamics could also lead to a decrease in short term effectiveness of the model.
- *Portfolio Turnover Risk:* A higher portfolio turnover will result in higher transactional and brokerage costs.

- *Small and Medium Capitalization Company Risk:* Small or medium capitalization companies may have limited product lines, markets or financial resources, and they may be dependent on a limited management group. Securities of smaller companies may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market averages in general.
- *Sovereign Debt Risk:* The issuer of the foreign debt or the governmental authorities that control the repayment of the debt may be unable or unwilling to repay principal or interest when due, and the Fund may have limited recourse in the event of a default. The market prices of sovereign debt, and the Fund's NAV, may be more volatile than prices of U.S. debt obligations and certain emerging markets may encounter difficulties in servicing their debt obligations.
- *U.S. Government Obligations Risk:* U.S. Treasury obligations are backed by the "full faith and credit" of the U.S. government and generally have negligible credit risk. Securities issued or guaranteed by federal agencies or authorities and U.S. government-sponsored instrumentalities or enterprises may or may not be backed by the full faith and credit of the U.S. government. The Fund may be subject to such risk to the extent it invests in securities issued or guaranteed by federal agencies or authorities and U.S. government-sponsored instrumentalities or enterprises.

**Temporary Investments:** To respond to adverse market, economic, political or other conditions, the Fund may invest 100% of its total assets, without limitation, in high-quality short-term debt securities and money market instruments. These short-term debt securities and money market instruments include: shares of money market mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. government securities and repurchase agreements. While the Fund is in a defensive position, the opportunity to achieve its investment objective will be limited. Furthermore, to the extent that the Fund invests in money market mutual funds for cash positions, there will be some duplication of expenses because shareholders will pay the fees and expenses of the Fund and, indirectly, the fees and expenses of the underlying money market funds. The Fund may also invest a substantial portion of its assets in such instruments at any time to maintain liquidity or pending selection of investments in accordance with its policies.

**Portfolio Holdings Disclosure:** A description of the Fund's policies regarding the release of portfolio holdings information is available in the Fund's Statement of Additional Information ("SAI").

**Cybersecurity:** The computer systems, networks and devices used by the Fund and its service providers to carry out routine business operations employ a variety of protections designed to prevent damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorized persons and security breaches. Despite the various protections utilized by the Fund and its service providers, systems, networks, or devices potentially can be breached. The Fund and its shareholders could be negatively impacted as a result of a cybersecurity breach.

Cybersecurity breaches can include unauthorized access to systems, networks, or devices; infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. Cybersecurity breaches may cause disruptions and impact the Fund's business operations, potentially resulting in financial losses; interference with the Fund's ability to calculate its NAV; impediments to trading; the inability of the Fund, the Adviser, and other service providers to transact business; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs; as well as the inadvertent release of confidential information.

Similar adverse consequences could result from cybersecurity breaches affecting issuers of securities in which the Fund invests; counterparties with which the Fund engages in transactions; governmental and other regulatory authorities; exchange and other financial market operators, banks, brokers, dealers, insurance companies, and other financial institutions (including financial intermediaries and service providers for the Fund's shareholders); and other parties. In addition, substantial costs may be incurred by these entities in order to prevent any cybersecurity breaches in the future.

## **MANAGEMENT**

**Investment Adviser:** Pinnacle Family Advisors, LLC, 620 W. Republic Road, Suite 104, Springfield, MO 65807, serves as investment adviser to the Fund. Subject to the oversight of the Board, the Adviser is responsible for management of the Fund's investment portfolio. The Adviser is responsible for ensuring that investments are made according to the Fund's investment objective, policies and restrictions. The Adviser was established in 2007 for the purpose of advising individuals and institutions. As of September 30, 2024, the Adviser had approximately \$335 million in assets under management.

Pursuant to the investment advisory agreement with the Trust, on behalf of the Fund, the Adviser is entitled to receive, on a monthly basis, an annual advisory fee equal to 1.00% of the Fund's average daily net assets for the month. The Adviser has contractually agreed to waive management fees and to make payments to limit Fund expenses, at least until August 1, 2026, so the Total Annual Operating Expenses After Fee Waiver and Reimbursement (excluding: (i) any front-end or contingent deferred loads; (ii) brokerage fees and commissions; (iii) acquired fund fees and expenses; (iv) borrowing costs (such as interest and dividend expense on securities sold short); (v) taxes; and (vi) extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees, contractual indemnification of Fund service providers (other than the Adviser))) of the Fund do not exceed 1.49% of average daily net assets attributable to Class A shares, 2.24% of average daily net assets attributable to Class C shares and 1.24% of average daily net assets attributable to Class I shares. These fee waivers and expense reimbursements are subject to possible recoupment from the Fund in future years on a rolling three-year basis (within the three years after the fees have been waived or reimbursed) if such recoupment can be achieved within the foregoing expense limits. This agreement may be terminated only by the Board on 60 days' written notice to the Adviser. A discussion regarding the basis for the Board's renewal of the advisory agreement is available in the Fund's financial statements for the fiscal year ended September 30, 2024. During the fiscal year ended September 30, 2024, the Fund paid an aggregate of 0.40% of its average net assets in advisory fees to the Adviser (after fee waivers).

**Portfolio Managers:** The Fund is managed on a day to day basis by R. Sean McCurry and Paul Carroll. The SAI provides additional information about each Portfolio Manager's compensation, other accounts managed by the Portfolio Managers, and the Portfolio Managers' ownership in the Fund.

R. Sean McCurry has been the Managing Member and President of the Adviser since 2008. Mr. McCurry also previously served as a Financial Adviser and Branch Manager for Raymond James Financial Services from January 1999 to December 2007.

Paul Carroll has been the Chief Investment Officer and Chief Compliance Officer of the Adviser since 2008. Mr. Carroll also served as a Financial Adviser for Raymond James Financial Services from December 2005 to November 2008.

## **HOW SHARES ARE PRICED**

Shares of the Fund are sold at NAV. The NAV of the Fund is determined at close of regular trading (normally 4:00 p.m. Eastern Time) on each day the New York Stock Exchange (“NYSE”) is open for business. NAV is computed by determining, on a per class basis, the aggregate market value of all assets of the Fund, less its liabilities, divided by the total number of shares outstanding ((assets-liabilities)/number of shares = NAV). The NYSE is closed on weekends and New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The NAV takes into account, on a per class basis, the expenses and fees of the Fund, including management, administration, and distribution fees, which are accrued daily. The determination of NAV for a share class for a particular day is applicable to all applications for the purchase of shares, as well as all requests for the redemption of shares, received by the Fund (or an authorized broker or agent, or its authorized designee) before the close of trading on the NYSE on that day.

Generally, the Fund’s securities are valued each day at the last quoted sales price on each security’s primary exchange. Securities traded or dealt in upon one or more securities exchanges (whether domestic or foreign) for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean between the current bid and ask prices on such exchanges. Securities primarily traded in the National Association of Securities Dealers’ Automated Quotation System (“NASDAQ”) National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price. Securities that are not traded or dealt in any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available generally shall be valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market. Debt securities not traded on an exchange may be valued at prices supplied by a pricing agent(s) based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity.

If market quotations are not readily available, securities will be valued at their fair market value as determined using the “fair value” procedures approved by the Board. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different from the value that could be realized upon the sale of that security. The fair value prices can differ from market prices when they become available or when a price becomes available. The Board has designated the Adviser as its “Valuation Designee” to execute these procedures. The Adviser may also enlist third party consultants such as an audit firm or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board reviews and ratifies the execution of this process and the resultant fair value prices at least quarterly to assure the process produces reliable results.

The Fund may use independent pricing services to assist in calculating the value of the Fund’s investments. In addition, market prices for foreign securities are not determined at the same time of day as the NAV for the Fund. Because the Fund may invest in underlying ETFs which hold portfolio securities primarily listed on foreign exchanges, and these exchanges may trade on weekends or other days when the underlying ETFs do not price their shares, the value of some of the Fund’s portfolio securities may change on days when you may not be able to buy or sell Fund shares.

In computing the NAV, the Fund values foreign securities held by the Fund at the latest closing price on the exchange in which they are traded immediately prior to closing of the NYSE. Prices of foreign securities quoted in foreign currencies are translated into U.S. dollars at current rates. If events materially affecting the value of a security in the Fund’s portfolio, particularly foreign securities, occur after the close of trading on a foreign market but before the Fund prices its shares, the security may be priced using alternative market prices provided by a pricing service. For example, if trading in a portfolio security is halted and does not resume before the Fund calculates its NAV, alternative market prices may be used to value the security. Without a fair value price, short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of the Fund’s portfolio securities can serve to reduce arbitrage opportunities available to short-term traders, but there is no assurance that fair value pricing policies will prevent dilution of the Fund’s NAV by short term traders. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the prices used by other mutual funds to determine NAV, or from the price that may be realized upon the actual sale of the security.

With respect to any portion of the Fund’s assets that are invested in one or more open-end management investment companies registered under the Investment Company Act of 1940, as amended, the Fund’s NAV is calculated based upon the NAVs of those open-end management investment companies, and the prospectuses for these companies explain the circumstances under which those companies will use fair value pricing and the effects of using fair value pricing.

## **HOW TO PURCHASE SHARES**

### **Share Classes**

This Prospectus describes three classes of shares offered by the Fund: Class A, Class C and Class I. The Fund offers these three classes of shares so that you can choose the class that best suits your investment needs. Refer to the information below so that you can choose the class that best suits your investment needs. The main differences between each class are sales charges, ongoing fees and minimum investment. For information on ongoing distribution fees, see the section “**Distribution Fees**” in this Prospectus. Each class of shares in the Fund represents interest in the same portfolio of investments within the Fund. There is no investment minimum on reinvested distributions and the Fund may change investment minimums at any time. The Fund reserves the right to waive sales charges, as described below. The Fund and the Adviser may each waive investment minimums at their individual discretion. Not all share classes may be available for purchase in all states.

### **Factors to Consider When Choosing a Share Class**

When deciding which class of shares of the Fund to purchase, you should consider your investment goals, present and future amounts you may invest in the Fund, and the length of time you intend to hold your shares. To help you make a determination as to which class of shares to buy, please refer back to the examples of the Fund’s expenses over time in the **Fees and Expenses of the Fund** section in this Prospectus. You also may wish to consult with your financial adviser for advice with regard to which share class is most appropriate for you.

### **Class A Shares**

Class A shares are offered at their public offering price, which is NAV plus the applicable sales charge and is subject to 12b-1 distribution fees of up to 0.25% of the average daily net assets of Class A shares. There are no sales charges on reinvested distributions. The minimum initial investment in Class A shares of the Fund is \$2,000 for all accounts. The minimum subsequent investment in Class A shares of the Fund is \$500 for all accounts.

<b>Amount Invested</b>	<b>Sales Charge as a % of Offering Price<sup>(1)</sup></b>	<b>Sales Charge as a % of Amount Invested</b>	<b>Dealer Reallowance</b>
Under \$25,000	5.75%	6.10%	5.00%
\$25,000 to \$49,999	5.00%	5.26%	4.25%
\$50,000 to \$99,999	4.75%	4.99%	4.00%
\$100,000 to \$249,999	3.75%	3.83%	3.25%
\$250,000 to \$499,999	2.50%	2.56%	2.00%
\$500,000 to \$999,999	2.00%	2.04%	1.75%
\$1,000,000 and above	0.00%	0.00%	0.00%

(1) Offering price includes the front-end sales load. The sales charge you pay may differ slightly from the amount set forth above because of rounding that occurs in the calculations used to determine your sales charge.

**How to Reduce Your Sales Charge** - You may be eligible to purchase Class A shares at a reduced sales charge. To qualify for these reductions, you must notify the Fund’s distributor, Northern Lights Distributors, LLC (the “Distributor”), in writing and supply your account number at the time of purchase. You may combine your purchase with those of your “immediate family” (your spouse and your children under the age of 21) for purposes of determining eligibility. If applicable, you will need to provide the account numbers of your spouse and your minor children as well as the ages of your minor children.

**Rights of Accumulation** - To qualify for the lower sales charge rates that apply to larger purchases of Class A shares, you may combine your new purchases of Class A shares with Class A shares of the Fund that you already own. The applicable initial sales charge for the new purchase is based on the total of your current purchase and the current value of all other Class A shares that you own. The reduced sales charge will apply only to current purchases and must be requested in writing when you buy your shares.

Shares of the Fund held as follows cannot be combined with your current purchase for purposes of reduced sales charges:

- Shares held indirectly through financial intermediaries other than your current purchase broker-dealer (for example, a different broker-dealer, a bank, a separate insurance company account or an investment adviser);
- Shares held through an administrator or trustee/custodian of an Employer Sponsored Retirement Plan (for example, a 401(k) plan) other than employer-sponsored IRAs; and
- Shares held directly in the Fund account on which the broker-dealer (financial adviser) of record is different than your current purchase broker-dealer.

**Letters of Intent** - Under a Letter of Intent (“LOI”), you commit to purchase a specified dollar amount of Class A shares of the Fund, with a minimum of \$25,000 during a 13-month period. The 13-month period begins upon the date of the LOI. At your written request, Class A shares purchases made during the 90 days prior to LOI may be included. The amount you agree to purchase determines the initial sales charge you pay. If the full-face amount of the LOI is not invested by the end of the 13-month period, your account will be adjusted to the higher initial sales charge level for the amount actually invested. You are not legally bound by the terms of your LOI to purchase the amount of your shares stated in the LOI. The LOI does, however, authorize the Fund to hold in escrow 5% of the total amount you intend to purchase. If you do not complete the total intended purchase at the end of the 13-month period, the Fund’s transfer agent will redeem the necessary portion of the escrowed shares to make up the difference between the reduced rate sales charge (based on the amount you intended to purchase) and the sales charge that would normally apply (based on the actual amount you purchased).

**Repurchase of Class A Shares** - If you have redeemed Class A shares of the Fund within the past 120 days, you may repurchase an equivalent amount of Class A shares of the Fund at NAV, without the normal front-end sales charge. In effect, this allows you to reacquire shares that you may have had to redeem, without repaying the front-end sales charge. You may exercise this privilege only once and must notify the Fund that you intend to do so in writing. The Fund must receive your purchase order within 120 days of your redemption. Note that if you reacquire shares through separate installments (e.g., through monthly or quarterly repurchases), the sales charge waiver will only apply to those portions of your repurchase order received within 120 days of your redemption. The redemption and repurchase of Fund shares may still result in a tax liability for federal income tax purposes.

### **Sales Charge Waivers**

The sales charge on purchases of Class A shares is waived for certain types of investors, including:

- Current and retired directors and officers of the Fund sponsored by the Adviser or any of its subsidiaries, their immediate family members (i.e., spouse, children, mother or father) and any purchases referred through the Adviser.
- Employees of the Adviser and their immediate family members, or any full-time employee or registered representative of the Distributor or of broker-dealers having dealer agreements with the Distributor (a “Selling Broker”) and their immediate family members (or any trust, pension, profit sharing or other benefit plan for the benefit of such persons).
- Any full-time employee of a bank, savings and loan, credit union or other financial institution that utilizes a Selling Broker to clear purchases of the fund’s shares and their immediate family members.
- Participants in certain “wrap-fee” or asset allocation programs or other fee-based arrangements sponsored by broker-dealers and other financial institutions that have entered into agreements with the Distributor.
- Clients of financial intermediaries that have entered into arrangements with the Distributor providing for the shares to be used in particular investment products made available to such clients and for which such registered investment advisers may charge a separate fee.
- Institutional investors (which may include bank trust departments and registered investment advisers).
- Any accounts established on behalf of registered investment advisers or their clients by broker-dealers that charge a transaction fee and that have entered into agreements with the Distributor.
- Separate accounts used to fund certain unregistered variable annuity contracts or Section 403(b) or 401(a) or (k) accounts.
- Employer-sponsored retirement or benefit plans with total plan assets in excess of \$5 million where the plan’s investments in the Fund are part of an omnibus account. A minimum initial investment of \$1 million in the Fund is required. The Distributor in its sole discretion may waive these minimum dollar requirements.

The Fund does not waive sales charges for the reinvestment of proceeds from the sale of shares of a different fund where those shares were subject to a front-end sales charge (sometimes called a “NAV transfer”). Whether a sales charge waiver is available for your retirement plan or charitable account depends upon the policies and procedures of your intermediary. Please consult your financial adviser for further information.

## **Class C Shares**

Class C shares of the Fund are offered at their NAV without an initial sales charge. This means that 100% of your initial investment is placed into shares of the Fund. Class C shares pay up to 1.00% on an annualized basis of the average daily net assets as reimbursement or compensation for service and distribution-related activities with respect to the Fund and/or shareholder services. Over time, fees paid under this distribution and service plan will increase the cost of a Class C shareholder's investment and may cost more than other types of sales charges. The minimum initial investment in the Class C shares is \$2,000 and the minimum subsequent investment is \$500.

## **Class I Shares**

Class I shares of the Fund are sold at NAV without an initial sales charge and are not subject to 12b-1 distribution fees. This means that 100% of your initial investment is placed into shares of the Fund. Class I shares require a minimum initial investment of \$1,000,000 and the minimum subsequent investment is \$5,000.

Class I Shares may also be available on certain brokerage platforms. An investor transacting in Class I Shares through a broker acting as an agent for the investor may be required to pay a commission and/or other forms of compensation to the broker.

Class I shares are available to certain institutional investors, and directly to certain individual investors as set forth below:

- Institutional Investors may include, but are not limited to, corporations, retirement plans, foundations/endowments and investors who purchase through a wrap account offered through a selling group member that enters into a wrap fee program agreement with the Distributor.
- Individual Investors include trustees, officers and employees of the Trust and its affiliates, and immediate family members of all such persons.
- Clients of the Adviser or purchases referred through the Adviser.
- To investors on certain brokerage platforms.

For accounts sold through financial intermediaries, it is the primary responsibility of the financial intermediary to ensure compliance with eligibility requirements such as investor type and investment minimums. An investor transacting through a broker acting as an agent for the investor may be required to pay a commission and/or other forms of compensation to the broker. The Fund may change investment minimums at any time. The Fund and the Adviser may each waive investment minimums at their individual discretion. Class I shares may not be available for purchase in all states.

## **Converting Shares**

Shareholders of the Fund may elect on a voluntary basis to convert their shares in one class of the Fund into shares of a different class of the Fund, subject to satisfying the eligibility requirements for investment in the new share class.

Shares held through a financial intermediary offering different programs and fee structures that has an agreement with the Adviser or the Fund's distributor may be converted by the financial intermediary, without notice, to another share class of the Fund, including share classes with a higher expense ratio than the original share class, if such conversion is consistent with the fee based or wrap fee program's policies.

All permissible conversions will be made on the basis of the relevant NAVs of the two classes without the imposition of any front-end sales load. A share conversion within the Fund will not result in a capital gain or loss for federal income tax purposes. The Fund may change, suspend or terminate these conversion features at any time.

## Purchasing Shares

You may purchase shares of the Fund by sending a completed application form to the following address:

**Regular Mail**  
**Pinnacle Multi-Strategy Core Fund**  
c/o Ultimus Fund Solutions, LLC  
P.O. Box 46707  
Cincinnati, OH 45246

**Express/Overnight Mail**  
**Pinnacle Multi-Strategy Core Fund**  
c/o Ultimus Fund Solutions, LLC  
225 Pictoria Dr, Suite 450  
Cincinnati, OH 45246

The USA PATRIOT Act requires financial institutions, including the Fund, to adopt certain policies and programs to prevent money-laundering activities, including procedures to verify the identity of customers opening new accounts. As requested on the application, you should supply your full name, date of birth, social security number and permanent street address. Mailing addresses containing a P.O. Box will not be accepted. This information will assist the Fund in verifying your identity. Until such verification is made, the Fund may temporarily limit additional share purchases. In addition, the Fund may limit additional share purchases or close an account if it is unable to verify a shareholder's identity. As required by law, the Fund may employ various procedures, such as comparing the information to fraud databases or requesting additional information or documentation from you, to ensure that the information supplied by you is correct.

*Purchase through Brokers:* You may invest in the Fund through brokers or agents who have entered into selling agreements with the Distributor. The brokers and agents are authorized to receive purchase and redemption orders on behalf of the Fund. Such brokers are authorized to designate other intermediaries to receive purchase and redemption orders on the Fund's behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or, if applicable, a broker's authorized designee receives the order. The broker or agent may set their own initial and subsequent investment minimums. You may be charged a fee if you use a broker or agent to buy or redeem shares of the Fund. Finally, various servicing agents use procedures and impose restrictions that may be in addition to, or different from those applicable to investors purchasing shares directly from the Fund. You should carefully read the program materials provided to you by your servicing agent.

*Purchase by Wire:* If you wish to wire money to make an investment in the Fund, please call the Fund at 1-888-985-9830 for wiring instructions and to notify the Fund that a wire transfer is coming. Any commercial bank can transfer same-day funds via wire. The Fund will normally accept wired funds for investment on the day received if they are received by the Fund's designated bank before the close of regular trading on the NYSE. Your bank may charge you a fee for wiring same-day funds.

*Automated Clearing House (ACH) Purchase:* Current shareholders may purchase additional shares via Automated Clearing House ("ACH"). To have this option added to your account, please send a letter to the Fund requesting this option and supply a voided check for the bank account. Only bank accounts held at domestic institutions that are ACH members may be used for these transactions.

You may not use ACH transactions for your initial purchase of Fund shares. ACH purchases will be effective at the closing price per share on the business day after the order is placed. The Fund may alter, modify or terminate this purchase option at any time.

Shares purchased by ACH will not be available for redemption until the transactions have cleared. Shares purchased via ACH transfer may take up to 15 days to clear.

*Transactions through [www.pinnacledynamicfunds.com](http://www.pinnacledynamicfunds.com):* You may purchase the Fund's shares and redeem the Fund's shares through the website [www.pinnacledynamicfunds.com](http://www.pinnacledynamicfunds.com). To establish Internet transaction privileges, you must enroll through the website. You automatically have the ability to establish Internet transaction privileges unless you decline the privileges on your New Account Application or IRA Application. You will be required to enter into a user's agreement through the website in order to enroll in these privileges. In order to conduct Internet transactions, you must have telephone transaction privileges. To purchase shares through the website you must also have ACH instructions on your account.

Redemption proceeds may be sent to you by check to the address of record, or if your account has existing bank information, by wire or ACH. Only bank accounts held at domestic financial institutions that are ACH members can be used for transactions through the website. Transactions through the website are subject to the same minimums as other transaction methods.

You should be aware that the Internet is an unsecured, unstable, unregulated and unpredictable environment. Your ability to use the website for transactions is dependent upon the Internet and equipment, software, systems, data and services provided by various vendors and third parties. While the Fund and its service providers have established certain security procedures, the Fund, the Distributor and its transfer agent cannot assure you that trading information will be completely secure.

There may also be delays, malfunctions, or other inconveniences generally associated with this medium. There also may be times when the website is unavailable for Fund transactions or other purposes. Should this happen, you should consider purchasing or redeeming shares by another method. Neither the Fund nor its transfer agent, the Distributor nor the Adviser will be liable for any such delays or malfunctions or unauthorized interception or access to communications or account information.

*Automatic Investment Plan:* You may participate in the Fund's Automatic Investment Plan, an investment plan that automatically moves money from your bank account and invests it in the Fund through the use of electronic funds transfers or automatic bank drafts. You may elect to make subsequent investments by transfers of a minimum of \$50 on a periodic basis into your established Fund account. Please contact the Fund at 1-888-985-9830 for more information about the Fund's Automatic Investment Plan.

The Fund, however, reserves the right, in its sole discretion, to reject any application to purchase shares. Applications will not be accepted unless they are accompanied by a check drawn on a U.S. bank, thrift institutions, or credit union in U.S. funds for the full amount of the shares to be purchased. After you open an account, you may purchase additional shares by internet or by sending a check together with written instructions stating the name(s) on the account and the account number, to the above address. Make all checks payable to "Pinnacle Multi-Strategy Core Fund." Cash, third party checks (except for properly endorsed IRA rollover checks), counter checks, starter checks, traveler's checks, money orders, credit card checks, and checks drawn on non-U.S. financial institutions will not be accepted. Cashier's checks bank official checks, and bank money orders are reviewed on a case-by-case basis and may be accepted under certain circumstances. Redemptions of shares of the Fund purchased by check may be subject to a hold period until the check has been cleared by the issuing bank. To avoid such holding periods, shares may be purchased through a broker or by wire, as described in this section.

*Note:* Ultimus Fund Solutions, LLC, the Fund's transfer agent, will charge a \$25 fee against a shareholder's account, in addition to any loss sustained by the Fund, for any uncleared and returned electronic payment or check returned to the transfer agent for insufficient funds.

**When Order is Processed:** All shares will be purchased at the NAV per share (plus applicable sales charges, if any) next determined after the Fund receives your application or request in good order. All requests received in good order by the Fund before the close of regular trading on the New York Stock Exchange (normally 4:00 p.m., Eastern Time) will be processed on that same day. Requests received after 4:00 p.m. will be processed on the next business day.

**Good Order:** When making a purchase request, make sure your request is in good order. "Good order" means your purchase request includes:

- the name of the Fund and share class;
- the dollar amount of shares to be purchased;
- a completed purchase application or investment stub; and
- check payable to the "Pinnacle Multi-Strategy Core Fund."

**Retirement Plans:** You may purchase shares of the Fund for your individual retirement plans. Please call the Fund at 1-888-985-9830 for the most current listing and appropriate disclosure documentation on how to open a retirement account.

## **HOW TO REDEEM SHARES**

**Redeeming Shares:** The Fund typically expects that it will take up to three business days following the receipt of your redemption request to pay out redemption proceeds by check or electronic transfer. The Fund typically expects to pay redemptions from cash, cash equivalents, proceeds from the sale of Fund shares, any lines of credit, and then from the sale of portfolio securities. These redemption payment methods will be used in regular and stressed market conditions. You may redeem all or any portion of the shares credited to your account by submitting a written request for redemption to:

***Regular Mail***  
**Pinnacle Multi-Strategy Core Fund**  
c/o Ultimus Fund Solutions, LLC  
P.O. Box 46707  
Cincinnati, OH 45246

***Express/Overnight Mail***  
**Pinnacle Multi-Strategy Core Fund**  
c/o Ultimus Fund Solutions, LLC  
225 Pictoria Dr, Suite 450  
Cincinnati, OH 45246

***Redemptions by Telephone:*** The telephone redemption privilege is automatically available to all new accounts. If you do not want the telephone redemption privilege, you must indicate this in the appropriate area on your account application or you must write to the Fund and instruct it to remove this privilege from your account. If you own an IRA, you will be asked whether or not the Fund(s) should withhold federal income tax.

The proceeds will be sent by mail to the address designated on your account or wired directly to your existing account in a bank or brokerage firm in the United States as designated on your application. To redeem by telephone, call 1-888-985-9830.

During periods of high market activity, you may encounter higher than usual wait times. Please allow sufficient time to ensure that you will be able to complete your telephone transaction prior to market close. Neither the Fund nor the transfer agent will be held liable if you are unable to place your trade due to high call volume.

The Fund reserves the right to suspend the telephone redemption privileges with respect to your account if the name(s) or the address on the account has been changed within the previous 30 days. Neither the Fund, the transfer agent, nor their respective affiliates will be liable for complying with telephone instructions they reasonably believe to be genuine or for any loss, damage, cost or expenses in acting on such telephone instructions and you will be required to bear the risk of any such loss. The Fund or the transfer agent, or both, will employ reasonable procedures to determine that telephone instructions are genuine. If the Fund and/or the transfer agent do not employ these procedures, they may be liable to you for losses due to unauthorized or fraudulent instructions. These procedures may include, among others, requiring forms of personal identification prior to acting upon telephone instructions, providing written confirmation of the transactions and/or recording telephone instructions.

***Redemptions through Broker:*** If shares of the Fund are held by a broker-dealer, financial institution or other servicing agent, you must contact that servicing agent to redeem shares of the Fund. The servicing agent may charge a fee for this service.

***Redemptions by Wire:*** You may request that your redemption proceeds be wired directly to your bank account. The Fund's transfer agent imposes a \$15 fee for each wire redemption and deducts the fee directly from your account. Your bank may also impose a fee for the incoming wire.

***Systematic Withdrawal Plan:*** If your individual accounts, IRA or other qualified plan account have a current account value of at least \$10,000, you may participate in the Fund's Systematic Withdrawal Plan, an investment plan that automatically moves money to your bank account from the Fund through the use of electronic funds transfers. You may elect to make subsequent withdrawals by transfers of a minimum of \$50 on a periodic basis into your established bank account. Please contact the Fund at 1-888-985-9830 for more information about the Fund's Systematic Withdrawal Plan.

**Redemptions in Kind:** The Fund reserves the right to honor requests for redemption or repurchase orders by making payment in whole or in part in readily marketable securities ("redemption in kind") if the amount is greater than the lesser of \$250,000 or 1% of the Fund's assets. The securities will be chosen by the Fund and valued under the Fund's NAV procedures. A shareholder will be exposed to market risk until these securities are converted to cash and may incur transaction expenses in converting these securities to cash.

**When Redemptions are Sent:** Once the Fund receives your redemption request in "good order" as described below, it will issue a check based on the next determined NAV following your redemption request. If you purchase shares using a check and soon after request a redemption, your redemption proceeds, which are payable at the next determined NAV following the receipt your redemption request in "good order", as described below, will not be sent until the check used for your purchase has cleared your bank.

**Good Order:** Your redemption request will be processed if it is in “good order.” To be in good order, the following conditions must be satisfied:

- The request should be in writing, unless redeeming by telephone, indicating the number of shares or dollar amount to be redeemed;
- The request must identify your account number;
- The request should be signed by you and any other person listed on the account, exactly as the shares are registered; and
- If you request that the redemption proceeds be sent to a person, bank or an address other than that of record or paid to someone other than the record owner(s), or if the address was changed within the last 30 days, or if the proceeds of a requested redemption exceed \$50,000, the signature(s) on the request must be medallion signature guaranteed by an eligible signature guarantor.

**Redemption Fee:** The Fund will deduct a 1.00% redemption fee on your redemption amount if you sell your shares within 60 days of purchase. Shares held longest will be treated as being redeemed first and shares held shortest as being redeemed last. Shares held for 60 days or more are not subject to the 1.00% fee. Redemption fees are paid to the Fund directly and are designed to offset costs associated with fluctuations in Fund asset levels and cash flow caused by short-term shareholder trading.

**Waivers of Redemption Fees:** The Fund has elected not to impose the redemption fee for:

- redemptions and exchanges of Fund shares acquired through the reinvestment of dividends and distributions;
- certain types of redemptions and exchanges of Fund shares owned through participant-directed retirement plans;
- redemptions or exchanges in discretionary asset allocation, fee based or wrap programs (“wrap programs”) that are initiated by the sponsor/financial adviser as part of a periodic rebalancing;
- redemptions or exchanges in a fee based or wrap program that are made as a result of a full withdrawal from the wrap program or as part of a systematic withdrawal plan;
- involuntary redemptions, such as those resulting from a shareholder’s failure to maintain a minimum investment in the Fund, or to pay shareholder fees; or
- other types of redemptions as the Adviser or the Trust may determine in special situations and approved by the Trust’s or the Adviser’s Chief Compliance Officer.

**When You Need Medallion Signature Guarantees:** If you wish to change the bank or brokerage account that you have designated on your account, you may do so at any time by writing to the Fund with your signature guaranteed. A medallion signature guarantee assures that a signature is genuine and protects you from unauthorized account transfers. You will need your signature guaranteed if:

- you request a redemption to be made payable to a person not on record with the Fund;
- you request that a redemption be mailed to an address other than that on record with the Fund;
- the proceeds of a requested redemption exceed \$50,000;
- any redemption is transmitted by federal wire transfer to a bank other than the bank of record; or
- your address was changed within 30 days of your redemption request.

Signatures may be guaranteed by any eligible guarantor institution (including banks, brokers and dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations). Further documentation will be required to change the designated account if shares are held by a corporation, fiduciary or other organization. *A notary public cannot guarantee signatures.*

**Retirement Plans:** If you own an IRA or other retirement plan, you must indicate on your redemption request whether the Fund should withhold federal income tax. Unless you elect in your redemption request that you do not want to have federal tax withheld, the redemption will be subject to withholding.

**Low Balances:** If at any time your account balance in the Fund falls below \$250, the Fund may notify you that, unless the account is brought up to at least \$250 within 60 days of the notice; your account could be closed. After the notice period, the Fund may redeem all of your shares and close your account by sending you a check to the address of record. Your account will not be closed if the account balance drops below \$250 due to a decline in NAV.

## **FREQUENT PURCHASES AND REDEMPTIONS OF FUND SHARES**

The Fund discourages and does not accommodate market timing. Frequent trading into and out of the Fund can harm all Fund shareholders by disrupting the Fund's investment strategies, increasing Fund expenses, decreasing tax efficiency and diluting the value of shares held by long-term shareholders. The Fund is designed for long-term investors and is not intended for market timing or other disruptive trading activities. Accordingly, the Board has approved policies that seek to curb these disruptive activities while recognizing that shareholders may have a legitimate need to adjust their Fund investments as their financial needs or circumstances change. The Fund currently uses several methods to reduce the risk of market timing. These methods including:

- Committing staff to review, on a continuing basis, recent trading activity in order to identify trading activity that may be contrary to the Fund's Market Timing Trading Policy;
- Assessing a 1% redemption fee for shares sold less than 60 days after purchase;
- Rejecting or limiting specific purchase requests; and
- Rejecting purchase requests from certain investors.

Though these methods involve judgments that are inherently subjective and involve some selectivity in their application, the Fund seeks to make judgments and applications that are consistent with the interests of the Fund's shareholders.

Based on the frequency of redemptions in your account, the Adviser or transfer agent may in its sole discretion determine that your trading activity is detrimental to the Fund as described in the Fund's Market Timing Trading Policy and elect to (i) reject or limit the amount, number, frequency or method for requesting future purchases into the Fund and/or (ii) reject or limit the amount, number, frequency or method for requesting future exchanges or redemptions out of the Fund.

The Fund reserves the right to reject or restrict purchase requests for any reason, particularly when the shareholder's trading activity suggests that the shareholder may be engaged in market timing or other disruptive trading activities. Neither the Fund nor the Adviser will be liable for any losses resulting from rejected purchase orders. The Adviser may also bar an investor who has violated these policies (and the investor's financial adviser) from opening new accounts with the Fund.

Although the Fund attempts to limit disruptive trading activities, some investors use a variety of strategies to hide their identities and their trading practices. There can be no guarantee that the Fund will be able to identify or limit these activities. Omnibus account arrangements are common forms of holding shares of the Fund. While the Fund encourages financial intermediaries to apply the Fund's Market Timing Trading Policy to their customers who invest indirectly in the Fund, the Fund is limited in its ability to monitor the trading activity or enforce the Fund's Market Timing Trading Policy with respect to customers of financial intermediaries. For example, should it occur, the Fund may not be able to detect market timing that may be facilitated by financial intermediaries or made difficult to identify in the omnibus accounts used by those intermediaries for aggregated purchases, exchanges and redemptions on behalf of all their customers. More specifically, unless the financial intermediaries have the ability to apply the Fund's Market Timing Trading Policy to their customers through such methods as implementing short-term trading limitations or restrictions and monitoring trading activity for what might be market timing, the Fund may not be able to determine whether trading by customers of financial intermediaries is contrary to the Fund's Market Timing Trading Policy. Brokers maintaining omnibus accounts with the Fund have agreed to provide shareholder transaction information to the extent known to the broker to the Fund upon request. If the Fund or its transfer agent or shareholder servicing agent suspects there is market timing activity in the account, the Fund will seek full cooperation from the service provider maintaining the account to identify the underlying participant. At the request of the Adviser, the service providers may take immediate action to stop any further short-term trading by such participants.

## **TAX STATUS, DIVIDENDS AND DISTRIBUTIONS**

Any sale or exchange of the Fund's shares may generate tax liability (unless you are a tax-exempt investor or your investment is in a qualified retirement account). When you redeem your shares you may realize a taxable gain or loss. This is measured by the difference between the proceeds of the sale and the tax basis for the shares you sold. (To aid in computing your tax basis, you generally should retain your account statements for the period that you hold shares in the Fund.)

The Fund intends to distribute substantially all of its net investment income and net capital gains annually in December. Both distributions will be reinvested in shares of the Fund unless you elect to receive cash. Dividends from net investment income (including any excess of net short-term capital gain over net long-term capital loss) are taxable to investors as ordinary income, while distributions of net capital gain (the excess of net long-term capital gain over net short-term capital loss) are generally taxable as long-term capital gain, regardless of your holding period for the shares. Any dividends or capital gain distributions you receive from the Fund will normally be taxable to you when made, regardless of whether you reinvest dividends or capital gain distributions or receive them in cash. Certain dividends or distributions declared in October, November or December will be taxed to shareholders as if received in December if they are paid during the following January. Each year the Fund will inform you of the amount and type of your distributions. IRAs and other qualified retirement plans are exempt from federal income taxation until retirement proceeds are paid out to the participant.

Your redemptions, including exchanges, may result in a capital gain or loss for federal tax purposes. A capital gain or loss on your investment is the difference between the cost of your shares, including any sales charges, and the amount you receive when you sell them.

The Fund must report to the IRS and furnish to shareholders the cost basis information for shares purchased and sold. The Fund has chosen average cost as its standing (default) tax lot identification method for all shareholders, which means the Fund uses this method to determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing NAVs, and the entire position is not sold at one time. Shareholders may, however, choose a method other than the Fund's standing method at the time of their purchase or upon sale of covered shares. Shareholders should consult their tax advisors to determine the best IRS-accepted cost basis method for their tax situation and to obtain more information about how cost basis reporting applies to them. Shareholders also should carefully review the cost basis information provided to them by the Fund and make any additional basis, holding period or other adjustments that are required when reporting these amounts on their federal income tax returns.

On the account application, you will be asked to certify that your social security number or taxpayer identification number is correct and that you are not subject to backup withholding for failing to report income to the IRS. If you are subject to backup withholding or you did not certify your taxpayer identification number, the IRS requires the Fund to withhold a percentage of any dividend, redemption or exchange proceeds. The Fund reserves the right to reject any application that does not include a certified social security or taxpayer identification number. If you do not have a social security number, you should indicate on the purchase form that your application to obtain a number is pending. The Fund is required to withhold taxes if a number is not delivered to the Fund within seven days.

This summary is not intended to be and should not be construed to be legal or tax advice. You should consult your own tax advisers to determine the tax consequences of owning the Fund's shares.

## **DISTRIBUTION OF SHARES**

**Distributor:** Northern Lights Distributors, LLC, 225 Pictoria Drive, Suite 450, Cincinnati, OH 45246, is the distributor for the shares of the Fund. The Distributor is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). Shares of the Fund are offered on a continuous basis.

**Distribution Fees:** The Trust, on behalf of the Fund, has adopted the Trust's Master Distribution and Shareholder Servicing Plan for each of Class A shares and Class C shares of the Fund (each a "Plan" and collectively, the "Plans") under Rule 12b-1, pursuant to which the Fund pays the Distributor an annual fee for distribution and shareholder servicing expenses of 0.25% of the Fund's average daily net assets attributable to the Class A shares and 1.00% of the Fund's average daily net assets attributable to the Class C shares. Class I shares do not have a Plan. Because these fees are paid out of the Fund's assets on an on-going basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

The Distributor and other entities are paid under the Plans for services provided and the expenses borne by the Distributor and others in the distribution of Fund shares, including the payment of commissions for sales of the shares and incentive compensation to and expenses of dealers and others who engage in or support distribution of shares or who service shareholder accounts, including overhead and telephone expenses; printing and distribution of prospectuses and reports used in connection with the offering of the Fund's shares to other than current shareholders; and preparation, printing and distribution of sales literature and advertising materials. In addition, the Distributor or other entities may utilize fees paid pursuant to the Plans to compensate dealers or other entities for their opportunity costs in advancing such amounts, which compensation would be in the form of a carrying charge on any un-reimbursed expenses.

**Additional Compensation to Financial Intermediaries:** The Distributor and its affiliates, and the Adviser and its affiliates may, at their own expense and out of their own assets including their legitimate profits from Fund-related activities, provide additional cash payments to financial intermediaries who sell shares of the Fund or assist in the marketing of the Fund. Financial intermediaries include brokers, financial planners, banks, insurance companies, retirement or 401(k) plan administrators and others. These payments may be in addition to the Rule 12b-1 fees and any sales charges that are disclosed elsewhere in this Prospectus. These payments are generally made to financial intermediaries that provide shareholder or administrative services, or marketing support. Marketing support may include access to sales meetings, sales representatives and financial intermediary management representatives, inclusion of the Fund on a sales list, including a preferred or select sales list, or other sales programs. These payments also may be made as an expense reimbursement in cases where the financial intermediary provides shareholder services to Fund shareholders. The Distributor may, from time to time, provide promotional incentives to certain investment firms. Such incentives may, at the Distributor's discretion, be limited to investment firms who allow their individual selling representatives to participate in such additional compensation.

**Householding:** To reduce expenses, the Fund mails only one copy of a Prospectus and each annual and semi-annual report to those addresses shared by accounts that have elected to receive paper copies of these documents. If you wish to receive individual copies of these documents, please call the Fund at 1-888-985-9830 on days the Fund is open for business or contact your financial institution. The Fund will begin sending you individual copies thirty days after receiving your request.

## **FINANCIAL HIGHLIGHTS**

The financial highlights table is intended to help you understand the Fund's financial performance for the past five years of the Fund's operations. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information has been derived from the financial statements audited by Cohen & Company, Ltd., the Fund's Independent Registered Public Accounting Firm, whose report, along with the Fund's financial statements which are incorporated by reference into the SAI and are available at no charge upon request.

Ratio of gross expenses to average net assets <sup>(3)(4)</sup>	1.72%	1.83%	1.56%	1.42%	1.60%
Ratio of net expenses to average net assets <sup>(4)</sup>	1.12% <sup>(8)</sup>	1.24%	1.24%	1.24%	1.24%
Ratio of net investment income (loss) to average net assets <sup>(4)(5)</sup>	0.28% <sup>(8)</sup>	0.62%	(0.12)%	(0.24)%	(0.17)%
Portfolio Turnover Rate	424%	512%	1127%	551%	560%

- (1) Per share amounts calculated using the average shares method, which more appropriately presents the per share data for the year.
- (2) Total returns shown are historical in nature and assume changes in share price, reinvestment of dividends and distributions, if any, and exclude the effect of applicable sales charges and redemption fees. Had the adviser not waived fees and/or reimbursed a portion of its expenses, total returns would have been lower.
- (3) Represents the ratio of expenses to average net assets absent fee waivers and/or expense reimbursements by the adviser.
- (4) Does not include the expenses of other investment companies in which the Fund invests.
- (5) Recognition of net investment income (loss) by the Fund is affected by the timing of declaration of dividends by the underlying investment companies in which the Fund invests.
- (6) Amount represents less than \$0.01 per share.
- (7) Includes adjustments in accordance with accounting principles generally accepted in the United States and, consequently the net asset value for financial reporting purposes and the returns based upon those net asset values may differ from the net asset values and returns for shareholder transactions.
- (8) Includes fees waived by the advisor for affiliated holding. The impact of the affiliated holding waiver is 0.12%.

**PRIVACY NOTICE****FACTS** **WHAT DOES NORTHERN LIGHTS FUND TRUST III DO WITH YOUR PERSONAL INFORMATION?**

**Why?** Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.

**What?** The types of personal information we collect and share depend on the product or service you have with us. This information can include:

- Social Security number
- Assets
- Retirement Assets
- Transaction History
- Checking Account Information
- Purchase History
- Account Balances
- Account Transactions
- Wire Transfer Instructions

When you are *no longer* our customer, we continue to share your information as described in this notice.

**How?** All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons Northern Lights Fund Trust III chooses to share; and whether you can limit this sharing.

<b>Reasons we can share your personal information</b>	<b>Does Northern Lights Fund Trust III share?</b>	<b>Can you limit this sharing?</b>
<b>For our everyday business purposes –</b> such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus	Yes	No
<b>For our marketing purposes –</b> to offer our products and services to you	No	We don't share
<b>For joint marketing with other financial companies</b>	No	We don't share
<b>For our affiliates' everyday business purposes –</b> information about your transactions and experiences	No	We don't share
<b>For our affiliates' everyday business purposes –</b> information about your creditworthiness	No	We don't share
<b>For nonaffiliates to market to you</b>	No	We don't share

**Questions?** Call (631) 490-4300

## Who we are

**Who is providing this notice?** Northern Lights Fund Trust III

## What we do

**How does Northern Lights Fund Trust III protect my personal information?** To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings.

Our service providers are held accountable for adhering to strict policies and procedures to prevent any misuse of your nonpublic personal information.

**How does Northern Lights Fund Trust III collect my personal information?** We collect your personal information, for example, when you

- Open an account
- Provide account information
- Give us your contact information
- Make deposits or withdrawals from your account
- Make a wire transfer
- Tell us where to send the money
- Tells us who receives the money
- Show your government-issued ID
- Show your driver's license

We also collect your personal information from other companies.

**Why can't I limit all sharing?**

Federal law gives you the right to limit only

- Sharing for affiliates' everyday business purposes – information about your creditworthiness
- Affiliates from using your information to market to you
- Sharing for nonaffiliates to market to you

State laws and individual companies may give you additional rights to limit sharing.

## Definitions

**Affiliates** Companies related by common ownership or control. They can be financial and nonfinancial companies.

- *Northern Lights Fund Trust III does not share with our affiliates.*

**Nonaffiliates** Companies not related by common ownership or control. They can be financial and nonfinancial companies

- *Northern Lights Fund Trust III does not share with nonaffiliates so they can market to you.*

**Joint marketing** A formal agreement between nonaffiliated financial companies that together market financial products or services to you.

- *Northern Lights Fund Trust III doesn't jointly market.*
